

TIDELINE FABRIC

POLYESTER FABRIC

THE FABRIC

Item No: Polyester Fabric

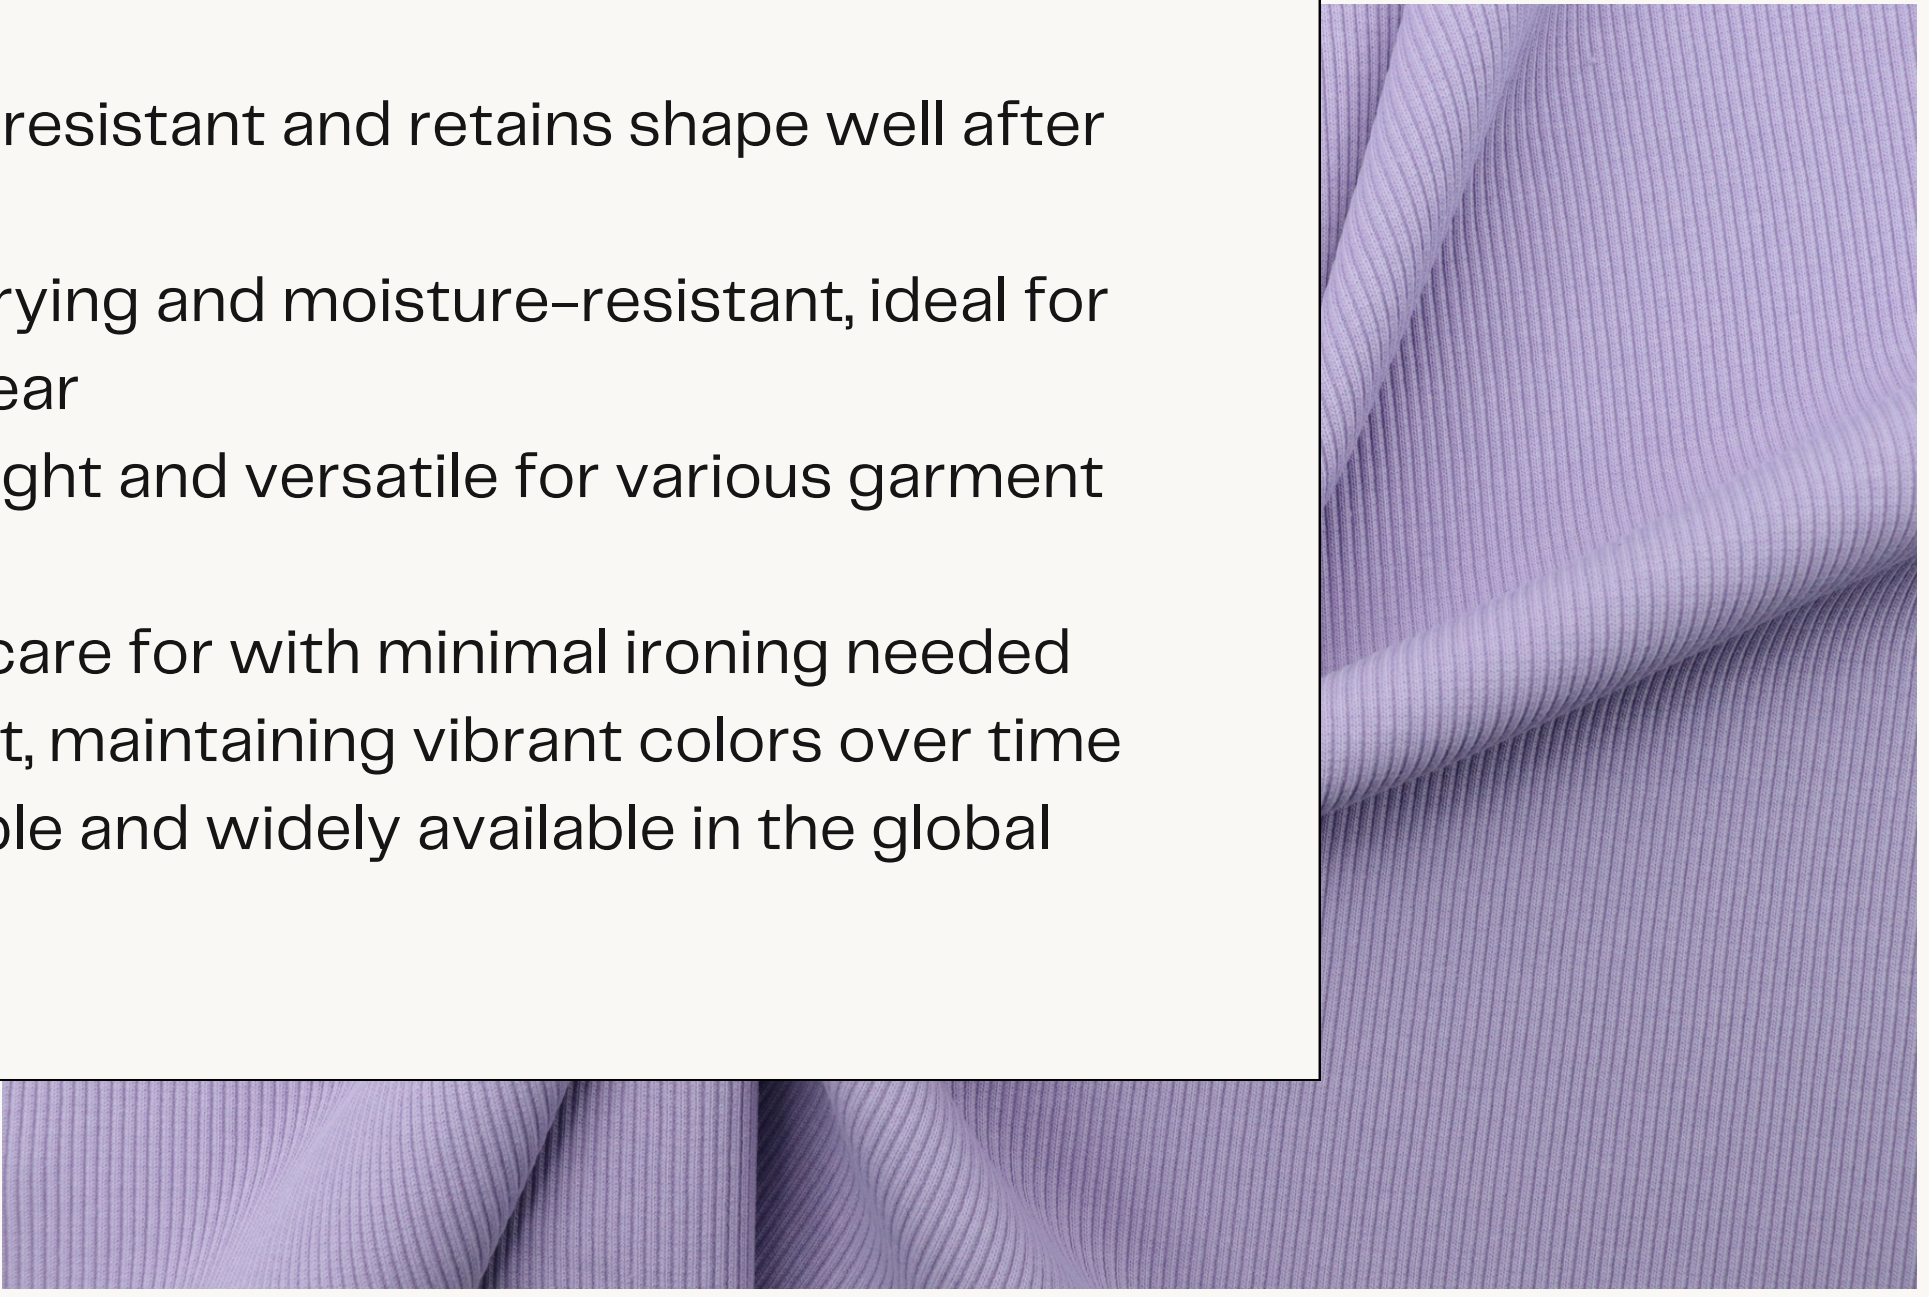

Weight: 195G

Width: 153CM

Composition: 85%Polyester 15%Spandex

A close-up photograph of a vibrant blue fabric, likely a swimwear material, showing its texture and folds. It occupies the top-left portion of the image.

ADVANTAGES

- Strong and highly durable, resistant to wear and tear
 - Wrinkle-resistant and retains shape well after washing
 - Quick-drying and moisture-resistant, ideal for activewear
 - Lightweight and versatile for various garment types
 - Easy to care for with minimal ironing needed
 - Colorfast, maintaining vibrant colors over time
 - Affordable and widely available in the global market
- 
- A close-up photograph of a light purple fabric with a vertical ribbed texture, showing its folds and texture. It occupies the right and bottom-right portions of the image.
